Description:

From School Library Journal Adult/High School-Salvatore has done a good job of fleshing out the story of the Star Wars II movie. The book introduces Anakin's mother; her husband; and her stepson, Owen, who will raise the future Luke Skywalker, and describes her capture and the failed attempt to rescue her. If that doesn't appeal, there is always the chapter describing Amidala's family on Naboo, whom viewers never even meet in the film. Perhaps more enticing, the book treats readers to the actual scene of Anakin's vengeful destruction of the Tusken Raider encampment, an action so pivotal to his future course in the Dark Side. Additionally, the audience can easily get confused as to the sequence of events during the movie-the book can clear that up. With its easy style and vocabulary, and hook of popular interest for young adults, this title may be just the needed spur for not-so-avid readers.
