**From Publishers Weekly** This valuable new account of the murder of Czar Nicholas II and his family contradicts the official Soviet version, in which Siberian Bolsheviks ordered the executions without Moscow's clearance. Photos.

**From Library Journal** A prominent Russian playwright has turned his talents to historical

investigation and produced an account containing intriguing new details for the Western reader and revelations for the previously uninformed citizenry of the former Soviet Union. Long fascinated by the death of Nicholas II, his wife, and his children, Radzinsky gained access to long-closed national archives containing state documents, diaries of the tsar and his family, and eyewitness accounts. To the well-known fact that the Bolsheviks who held the royal family executed them hastily out of fear that advancing White forces might recover the tsar, Radzinsky adds documentation of Lenin's approval of the local Reds' actions and full descriptions (from participant accounts) of the killings and disposal of the bodies. He also introduces evidence suggesting that two of the Romanovs survived. Early chapters are routine, and a trained historian might have handled the material differently, but this book will attract attention. For most collections.
